Mother's Day Part 2

The VOH is blessed to have so many caring women who interact with the children on a daily basis, both in the homes and at the school. Today we were able to honour just a few of them. The 8 house moms, along with Mrs Chisoro (social worker) and Mrs Zowa (pastor) came to our residence for a morning of crafts, games, bonding time, and laughter.

A small craft made of stones glued onto canvas allowed the women to express their creative side. A Bible quiz based on things that come third in the Bible tested their knowledge, and helped us to realize just how much information is packed into that book! A devotion based on "A Mother's Love" led to a discussion of the challenges of maintaining good relationships between parents and children of all ages.

For the ladies of our team, it was such an honour to spend time with these women! They are a very close-knit group, a sisterhood of support and encouragement. They work together to raise the children of VOH. They pray together through good times and through challenges. They worship together and encourage each other in their faith. They sing together to bring praise to God. And all the time, the children watch and learn from these loving, amazing role models. Praise God that they are here! And may they be blessed in all that they do for the many children of VOH.
