

## VOH Zimbabwe Update: Meet Chenai and Chiedza January 26, 2023

Chenai and Chiedza are twins that have been at VOH Zimbabwe since they were very young. When they were five, they moved into one of the children's homes at our centre in 2010.

We watched them grow up and complete their secondary education at the end of 2022. They are now over 18 and excited to move into the next phase of their lives!

Their maternal grandmother came to pick them up and take them to her home. We were happy to see them reunited with family.

We wish them well and know they are equipped for a bright future ahead!
