

VOH Zimbabwe Update: Supporting our Community October 7, 2021

Our community outreach program coordinators at VOH Zimbabwe are always looking for opportunities to support children who aren't yet part of our satellite programs. Recently, we received a donation of 100 food packs. Each pack included mealie meal, cooking oil, sugar, and salt. We were able to distribute these packs to families in need in the nearby communities. We are happy to provide additional help to children and their families in our community whenever we can!
