

VOH Zimbabwe Update: Family Time November 10,2021

Each day at VOH Zimbabwe, the housemothers and children living in each of our children's homes have family time together. Coming together, relaxing, and connecting is so important. We caught up with one of the families while the big sister was preparing dinner for her siblings. This family lives in Wasaga Beach House, which was constructed over ten years ago thanks to the generous donation of our friends from Lighthouse Church in Ontario. There are currently eight children living in the home. They all attend school at our Centre, and the two oldest children will be writing government exams this year. Thanks to the support from their teachers and housemother, we know they will do well!
