

## VOH Zimbabwe: Teaching Interns

### September 1, 2023

The school term is over, and it's time to say goodbye to our temporary intern teachers at VOH Zimbabwe.

Patience is one of these interns. She's a VOH graduate studying to become a teacher. She is currently in college but decided to return home to VOH for her internship. Having VOH graduates return like this shows us that we are positively impacting our students' lives.

We were happy to have Patience and the other two interns working with us. Seeing former VOH graduates inspires current students to work hard and pursue their dreams.

We wish all the interns well as they return to finish their last year in college and thank them for their time at VOH!
