

VOH Zimbabwe Update: Mission Zimbabwe Outing June 29, 2023

One of the great benefits of having visitors to our VOH Zimbabwe centre is that the children get to do things they would ordinarily not have the opportunity to do.

The visiting Mission Zimbabwe team recently took the children who live onsite at our centre on a very exciting outing. It was a day filled with fun for the children and their caregivers.

They went to a nearby fun park where a wide variety of activities were available for them to try. These included roller coasters, swings, jumping castles, boating, and swimming. To top it off, the children were treated to a nice lunch.

We sincerely thank the team for taking the time and resources to visit and treat our children to such a fun-filled day!
